THE BRADSTREET COMPANY, BRADSTREETS RICHMOND OFFICE, Telephone No. 423 J. H. WHITTY, Superiatendent.

The Richmend office has more than kept pace with the rapid growth of the city and development of the territory tributary to it. It offers to the mercantile community of this section all the advantages of a system the superiority of which is recognized in every trade centre of the civilized world. That it is in a special sense prepared to guard the interest of its local patrons is attested by the fact that it has now a targer summer of subscribers than any other mercantile agencies.

LARD SHORT-RISE.

REVIEW OF THE CHICAGO MARKET.

CHICAGO, May 2h.—The merning trading of Change was active in grains and very dull is provisions. Wheat took the lead in interest and estimate for Saturday was 710 mers. Over 60 per cont. of the receipte this morning graded No. 2. Trading was only inederately active. In ones near futures were spile active, while more deferred options were retired, while more deferred options were retired. Trading in May was especially active under good demand from shorts, and there was an alwance of its over yesterday's outside figure. May opened at 50 kg. and closed at 500. Previsions were weaker and declines slightly. The weakeness in corn had a denieving feating among helders of cured hog products, and although heading was small and the offeringe not accessive the market closed easy at almost luvide figures. July land was purchased moderately by an English party, and the sales ranged 46.50 gas 36.50.
